MEMORANDUM FOR: Director, FBIS

THROUGH : Chief, Operations Group

SUBJECT : Monthly Report - Austrian Bureau - June 1986

I. GENERAL

1. In the first full month of operating the bureau's new Local Area Network (phase 1), items totaling some 130,000 words were processed and filed by computer. In other words, these items did not require repunching in the communications section. Problems with the system were minimal, although some aspects of administering the system are turning out to be fairly time consuming. Deputy Chief [] is responsible for coordinating feed-back on the system for ESG/ADD.

STAT

2. In the Austrian runoff presidential election of 8 June, Kurt Waldheim received 53.89 percent of the vote. This victory resulted in the resignation of Sinowatz as chancellor, and his replacement by Vranitzky, as well as other government changes. The election, which was naturally of great interest to the embassy and which touched off strong international reaction, resulted in increased production from all Austrian media.

3. The bureau underwent a successful audit at mid-month.

II. OPERATIONS

A. Monitorial/Editorial

1. Main events in East Europe in June were the Warsaw Pact Consultative Committee meeting in Budapest, the LCY Congress in Belgrade, and the PZPR Congress in Warsaw. These major events helped account for a fairly high wordage for a June: some 745,000 publishable words.

2. The bureau started a month's survey at the BBC's request to determine if there is East European economic material available from the bureau's coverage which may be responsive to some BBC consumers. The survey will examine the economic content of Romanian and Bulgarian media.

B. Communications

There were no outages on the bureau's outgoing line--the VCVC line to London Bureau. The incoming line, through the embassy, was out for 75 hours and 16 minutes.

C. Technical

Preliminary versions of two computer programs have been developed in-house in the past couple months: a computerized word and phrase dictionary and an inventory "card" management system. We hope to have some version of the former incorporated into the VLAN eventually, and the latter program was given to the auditors for comment by their headquarters.

III. ADMINISTRATION

1. The following monitors have received promotions:
